

QUO VADIS

Introduction

Quo Vadis, one of the worlds leading Lighting System Integrators and Technical Service Providers, creates the most technically advanced control systems available, by integrating commercial lighting control and home automation products from the worlds leading manufacturers.

Working in full co-operation with all leading Architects, Mechanical & Electrical Consultants, Interior Designers and Lighting Designers, Quo Vadis can specify, supply, maintain and technically support the most comprehensive lighting systems available.

Solutions are all application specific, ensuring that end users get elegant and convenient control of both their working and living environments. Whether it be to control lighting, security or complete home automation systems, Quo Vadis have the answers.

Harnessing cutting edge technology offers customers the flexibility of using simple wall panels, touch-screen panels or even the internet to monitor and control residential and commercial premises, from home or abroad.

Quo Vadis complements the quality of the products used in each application, with the quality of its own dedicated after-sales technical services, with on-site support maintained by our team of highly skilled technicians.

Quo Vadis, for your total lighting solutions.

TOTAL LIGHTING SOLUTIONS

QUO VADIS
