

QUO VADIS

Introduction

Quo Vadis, one of the worlds leading Lighting System Integrators and Technical Service Providers, creates the most technically advanced control systems available, by integrating commercial lighting control and home automation products from the worlds leading manufacturers.

Working in full co-operation with all leading Architects, Mechanical & Electrical Consultants, Interior Designers and Lighting Designers, Quo Vadis can specify, supply, maintain and technically support the most comprehensive lighting systems available.

Solutions are all application specific, ensuring that end users get elegant and convenient control of both their working and living environments. Whether it be to control lighting, security or complete home automation systems, Quo Vadis have the answers.

Harnessing cutting edge technology offers customers the flexibility of using simple wall panels, touch-screen panels or even the internet to monitor and control residential and commercial premises, from home or abroad.

Quo Vadis complements the quality of the products used in each application, with the quality of its own dedicated after-sales technical services, with on-site support maintained by our team of highly skilled technicians.

Quo Vadis, for your total lighting solutions.

TOTAL LIGHTING SOLUTIONS

QUO VADIS

Technical Services

Quo Vadis technical services offer its customers the highest level of lighting expertise currently available in the world.

With all technicians having been fully trained in all aspects of architectural lighting control and home automation systems, Quo Vadis can supply, maintain and technically support the most comprehensive systems currently available.

Registered customer benefits include dedicated 24-Hour on-line technical support from our technical department, immediate email support, live PDF links to all installation guides, user guides, technical data sheets and where applicable live Internet support direct to your home/office.

When coupled with our extended 24-month warranties, Quo Vadis offers the ultimate support package for all applications.

Dedicated International Services ensures that Quo Vadis Technicians can be mobilised to meet all customer requirements, in all aspects of Home Automation and Architectural Lighting Control.

Services include:

- Annual Maintenance agreements.
- Global technical support - Gold and Silver Policies.
- 24 and 48 Hour rapid response callout.
- 24 Hour on-line technical support.
- PDF links to technical guides for all supported products.
- Live Internet Support.
- Independent technical inspection and approval of all products.
- Comprehensive on-site electrical analysis / fault finding.
